

# 3rd European-Asian Workshop on Light-Emitting Diodes: Material Growth, Device and Application

March 5-6, 2015  
Kongens Lyngby, Denmark

## FIRST CALL FOR PAPER

### Introduction

The 3rd European-Asian Workshop on Light-Emitting Diodes: Material Growth, Device and Application will be held on March 5-6, 2015 at Technical University of Denmark, located in Kongens Lyngby, Denmark. This workshop follows the 1st one in 2012 and 2nd one in 2013, both held in Denmark. The two-day workshop is devoted to exposition of recent progress and outlining future directions in the field of LEDs: from material growth, device fabrication to applications. It will provide a stimulating environment for researchers, experts and educators to share their thoughts and to discuss the frontier of the field.

$$E_{ph} = h \frac{c}{\lambda} \int_a^b e^{\Theta} + \alpha \int \delta e^{i\pi} = -1$$

$\chi^2$   $\sum$   $\gg$   $\approx$   $\lambda$

### Scope and topics

The workshop aims to cover the LEDs technologies in the following major topical fields (but not limited to):

- Growth of GaN-based materials, oxides for LEDs
- Fabrication of LEDs
- Characterization of LEDs and their related materials
- Industrial application of LEDs

### Contact

Organizer: Assoc. Prof. Haiyan Ou ([haou@fotonik.dtu.dk](mailto:haou@fotonik.dtu.dk))

Secretary: Dr. Yiyu Ou ([yiyu@fotonik.dtu.dk](mailto:yiyu@fotonik.dtu.dk)) (invitation letter, hotel booking)

### Location

Technical University of Denmark  
Kongens Lyngby, Denmark
